

## Corporate Gliding Experience Events

# A Truly Unforgettable Day!

Corporate hospitality is all about making your customers, employees and suppliers feel valued, and it is a proven fact that a simple demonstration of how important they are to you, can significantly increase loyalty and retention.

If your company is looking for an innovative way to build upon the loyalty you have already earned, then Staffordshire Gliding Club have a range of unique packages guaranteed to make your company ‘unforgettable’. All of our packages are tailored to your individual requirements with the smaller packages even being appropriate for ‘non corporate’ use by private groups or family & friends.

## The Experience

Depending on your number of guests within your group, we are able to offer two means of launching you into the air:-

**Winch:** The glider is attached to a 1km length of steel cable and pulled into the air at high speed by a powerful winch stationed at the opposite end of the airfield. Once the glider has reached its optimum winch height of about 1,200 feet, it is released by the instructor who will then keep the aircraft aloft until landing safely back at the airfield 5-6 minutes later.

**Aerotow:** The glider is attached via a tow rope to a powered aircraft and is gracefully towed behind it to a height of about 2,500 feet. The instructor will then release and conduct a flight of between 20-25 minute duration. During this time your guests will either be invited to ‘take the controls’ and get a fully hands-on flying experience, or they can simply relax and admire the breathtaking views of the surrounding countryside.

## Our Team

**Instructors:** All of our instructors are fully BGA qualified, and it is their job to tailor each flight to the wishes of your guest, in order to ensure that they get the most out of their gliding experience.

**Ground Crew:** The ground crew’s principal responsibility is to ensure the safety of your guests. They are there to make sure that parachutes are fitted correctly, that your clients are relaxed and comfortable within the aircraft, and clear on what to expect.

**Hospitality:** Whilst on the ground, your guests will be personally tended to by our hospitality team. They are there to serve drinks and light refreshments as required, as well as being available to safely transit guests to and from the clubhouse and around the airfield. Note: The clubhouse is equipped with WiFi for guests who need to stay in touch.

As far as your guests are concerned it is ‘their day’ and it is our team’s intention to ensure that it is an enjoyable, safe and unforgettable one!

## Our Packages

All of our packages come with full hospitality and catering, but there are also many optional ‘add ons’ available to make your event ‘bespoke’ and truly unique!

A typical ‘Gliding Package’ consists of :-

- A light breakfast on arrival
- Registration and group briefing
- Transit to the launch marquee
- An introduction and familiarity with the aircraft
- A mix of winch and aerotow flights per guest\*
- Unlimited Tea, coffee and light refreshments
- A full buffet lunch
- A personal souvenir record of their day\*

\*(Dependant on choice of package)
